

Project Initialization and Planning Phase

Date	30 June 2026
Team ID	xxxxxxx
Project Name	Credit Card Approval
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Banks receive a large number of credit card applications every day. Manual verification is time-consuming, inconsistent, and prone to human error, which may lead to approving high-risk applicants or rejecting eligible customers. This project uses Machine Learning algorithms to analyze customer information and accurately predict whether a credit card application should be approved or rejected, improving decision-making speed, accuracy, and customer satisfaction.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A male applicant seeking a loan.	Secure a loan for the property	Married with no co-applicant income.	Self-employed with a good credit history.	Optimistic about loan approval.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A male applicant seeking a loan.	Secure a loan for the property	Married with no co-applicant income.	Self-employed with a good credit history.	Optimistic about loan approval.
